Re: Water Right Permit No. **G2-25535**

Dear Mr. McAlister:

In response to your request, the development schedule for the above referenced water right has been extended as follows:

**Proof of Appropriation: August 30, 2019**

Basis of extension approval:

- The delay is justified, given local development patterns and local economic conditions.

The Department of Ecology is adding the following water measurement provisions to this permit to ensure that you are in compliance with Chapter 173-173 WAC and to document beneficial use.

**Measurement of Water Use**

How often must water use be measured?	Monthly
How often must water use data be reported to Ecology?	Upon Request
What volume should be reported?	Total Annual Volume
What rate should be reported?	Annual Peak Rate of Withdrawal (gpm)

An approved measuring device must be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173.

Department of Ecology personnel, upon presentation of proper credentials, must have access at reasonable times, to the records of water use that are kept to meet the above conditions, and to inspect at reasonable times any measuring device used to meet the above conditions.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Please mail in the enclosed *Proof of Appropriation form* by the deadline. If you have any questions, please contact Tammy Hall at [thl461@ecy.wa.gov](mailto:thl461@ecy.wa.gov) or (360) 407-6099.
